The LindA Project

A child has the right to be a child!

Newsletter nr. 2 - September 2026

Dear friends and other interested parties,

A little later than usual, here is once again the newsletter from Lira, Northern Uganda. The children have already left again for their respective schools for the third trimester. Sarah brought back a wonderful report card after her second year of Public Administration at Bachelor level.
Exciting times for Finah and Nancy. They are both taking their O-level final exams.

We were able to take some nice pictures.

Here you see Anna, caretaker, Finah and next to her Jozina, Yubo, who has grown very tall, and in front of Finah, Laureen and Nancy.

Anna en Solomon,
the couple hat looks after the children.

When we started 26 years ago, female volunteers soon joined as well.
The very first were Judith and Petra.

And now, after all these years, **Judith** contacted me. What a lovely reunion it was.
She went to visit Uganda and Lira with her children.

Here you see them, unfortunately only from behind, walking at House of Grace. On the right Judith, on the left her children.

House of Hope has been renovated. It is now completely walled. And Joshua thought the gate could use a fresh coat of paint too.

Old

New

Next year, a football event will take place in Africa:
African Cup of Nations.

Something like the European Championships.
It takes place in Kenya, Tanzania and Uganda.

Lira has also been selected as a football city, and they are currently busy building a beautiful football stadium.

However, they will also have to asphalt the roads leading to it, otherwise no one will be able to come and watch. Currently, it is a potholed road.
It is located outside the city, but the hotels are in the city. So… I am curious.

The garden looks good, it has rained a lot.

The treasurer has worked hard again this year. On the website, under "publications," you will find the **2025 financial annual report** and the **2025 social annual report.** There you can see how much money we received—thank you!—and how we spent it.

I hope to be able to travel to Uganda again this Christmas, but that remains to be seen. My health is not good at the moment. Something is wrong with my bladder. They are still investigating it. Please pray for me!!!!

I wish you all a good Indian summer.

Till next time.
